

Explore Limitless Possibilities with Our API's

Collection Widget | Receive mobile money payments on your website through a USSD or QR code

The MoMo Widget is a solution that enables a developer or partner to integrate a MoMoPay checkout button to accept Mobile Money payments on your e-commerce site.

Collections | Enable remote collection of bills, fees or taxes.

Collections is a service that enables Mobile Money partners to receive payments for goods and services using MTN Mobile Money. The services can be face-to-face like HomePay or can be done remotely for both offline and online. Payments can be customer...
